Parnell Pharmaceuticals: Pretz Nasal Products
This company provides a different irrigating solution that includes glycerin and saline formula with an added organic compound called yerba santa.

TeledyneWaterPik
A pulsating liquid delivery system formerly engineered for use as an oral irrigator and is currently being used for nasal irrigation. This product requires the use of a nasal adapter that can be purchased from various companies, including Ethicare, ENTSol, Kenwood, and HydroMed.

Ethicare: Hydro-Flo
This delivery system is motorized and provides a steady flow (nonpulsatile) of irrigating solution from a sealed 1.5 liter container. Flow rate can be controlled during irrigation.
http://www.ethicare.com

Hydromed: Grossan Sinus Irrigator
This irrigating device employs pulsating irrigation delivered through a cone-shaped silicon nasaltip adapter attached to a WaterPik oral irrigator.
